

**CITY OF SILVERTON
CITY COUNCIL MINUTES**

Silverton Community Center – Council Chambers – 421 South Water St. and Zoom

June 1, 2020, 6:00 p.m.

I. OPENING CEREMONIES – Call to Order & Roll Call

Mayor Palmer called the meeting to order at 6:02 p.m. All City Councilors were present through the virtual meeting platform Zoom. Mayor Palmer explained this meeting is being held through Zoom due to Governor Brown’s Executive Order 20-16.

| Present | Absent | |
|------------------|-------------------|---------------------------------------|
| <u> X </u> | <u> </u> | Mayor Kyle Palmer |
| <u> X </u> | <u> </u> | Council President Jason Freilinger |
| <u> X </u> | <u> </u> | Jim Sears |
| <u> X </u> | <u> </u> | Matt Plummer |
| <u> X </u> | <u> </u> | Dana Smith |
| <u> X </u> | <u> </u> | Laurie Carter |
| <u> X </u> | <u> </u> | Crystal Neideigh |

Staff Present:

City Manager, Christy Wurster; Chief of Police, Jim Anglemier; Community Development Director, Jason Gottgetreu; Public Works Director Petra Schuetz; Assistant to the City Manager/HR Coordinator, Elizabeth Gray; and Assistant to the City Manager/City Clerk, Angela Speier

II. APPROVAL OF MINUTES

Councilor Carter made a motion to approve the minutes from the regular meeting held on May 4, 2020 and the work session held on May 18, 2020. Councilor Neideigh seconded the motion. There was no discussion and the motion passed unanimously (7-0).

III. OATHS OF OFFICE/PUBLIC RECOGNITION – None scheduled

IV. PUBLIC COMMENT

April Newton submitted written comments for the record on May 30, 2020. Ms. Newton requested City Council discuss the idea of mandating a mask requirement within Silverton’s local businesses. She asked a policy be created for the public to wear masks anytime individuals are indoors, in any local business. The written comments were forwarded to the City Council for their consideration. Councilor Carter asked whether communities that are requiring masks if police officers also wear them. Ms. Newton said if a city requires it then police would have to wear them as well. City Council discussed this topic further under the city manager update.

Sahaji Fisher and Sarah Weitzman submitted written comments that were emailed to the City Council prior to the meeting. The three written public comments received are attached to the minutes as Attachment 1.

V. SCHEDULED PRESENTATIONS

5.1 2020 Rate Adjustment and New Franchise Agreement – Republic Services

Jason Jordan, Jay Lawson, KJ Lewis, and Will Mathias from Republic Services reviewed the PowerPoint presentation that was located in the City Council packet. Mr. Jordan, General Manager introduced the team from the Republic Services and provided an overview of the rate and franchise discussion that has taken place with the City since 2018. Mr. Lawson, Operations Manager provided an overview of the number of containers and tons of material Republic Services collected from the community in 2019. Ms. Lewis, Municipal Manager explained how Republic Services has responded to COVID-19, as well as their community involvement. Mr. Mathias, Finance Manager reviewed the Statement of Income for Republic Services and where they are in terms of the profitability range if City Council does not approve a rate adjustment. In 2019, their profitability dropped to 5.9 percent which is below the acceptable range of 8-12 percent. The rate adjustment they are requesting would bring them back into the acceptable range.

Mr. Mathias reviewed the Schedule of Expenses and highlighted the increase in disposal and recycling costs from 2017 due to the change in global recycling markets. He reviewed the breakdown of how Republic Services spends the \$29.10 monthly payment from a 35 gallon customer. They included a five percent and seven percent rate increase depending on the approved franchise fee with the City.

Mr. Mathias explained City Council wanted Republic Services to look at unbundling the rates to make them more equitable and attach the right cost of service to each service level as well as attaching the right disposal cost to each container size. Mr. Mathias explained how the unbundled rates were developed and presented an alternative exhibit (see attachment 2) to Resolution No. 20-12, referred to as the rate equity service model. This still represents the 14.9 percent increase Republic Services is requesting, but it is not an across the board increase like what is proposed in Resolution No. 20-12. In this model some rates go up and others would go down. The objective with this alternative rate was to look at the true cost for each service level. Councilor Smith asked why the residential rates for the 20 and 95 gallon carts increased much more dramatically than the 35 and 65 gallon carts. Mr. Mathias said these rates better reflect what the cost for service actually is, because the rates for 20 gallon carts were set lower in order to incentivize people to purchase the smaller cart. This rate structure would not provide that type of incentive anymore. Councilor Smith asked about the disposal of yard debris and if that portion of the business is ran through a separate branch of Republic Services. Mr. Mathias said it is and they pay a market rate for its disposal. Councilor Smith asked what the profit margin is for that business. Mr. Mathias said he did not know, because it is in another business unit. Councilor Plummer noted consistency issues with both exhibits and asked if the cost of service is the same for each rate structure. Mr. Mathias explained there is a difference for cost of service between carts and containers, but the proposed residential and commercial rates reflect the same cost of service and that is the same for the container services as well.

Councilor Sears explained he worked with Republic Services on Exhibit B and shared a spreadsheet that provides more detail on the unbundled rates that were included. It also showed which carts and containers have been subsidized in the past and which ones have been overcharged.

Councilor Smith asked if customers could move to having their recycling carts picked up once per month instead of twice per month. Councilor Sears said at this point that would be difficult, but it could be looked at in the future. Under the new franchise agreement Republic Services would present to City Council annually. Mr. Lawson explained some of the risks identified with both rate structures. In closing, Republic Services asked City Council to approve the new franchise agreement and grant their request for a 14.95 percent rate increase.

5.2 Silverton Chamber of Commerce Monthly Update – Stacy Palmer

Stacy Palmer, Executive Director of the Silverton Chamber of Commerce provided their monthly update. She thanked two members who served on the Board of Directors and recently retired. The Chamber hung 70 flower baskets today. They are continuing to work with local businesses on the requirements to reopen under Phase 1 and are looking forward to the Phase 2 reopening process. They have partnered with

SEDCOR to advertise local providers who are making PPE equipment. The Chamber office will remain closed until Phase 2.

VI. PUBLIC HEARINGS - None scheduled

VII. DISCUSSION/ACTION ITEMS

7.1 Ordinance No. 20-06 – Relating to solid waste management in the City of Silverton

City Manager Christy Wurster explained Ordinance No. 20-06 is a proposed solid waste franchise agreement with Republic Services.

Councilor Freilinger made a motion to have the first reading of Ordinance No. 20-06 by title only. Councilor Carter seconded the motion. There was no discussion and the motion passed unanimously (7-0). City Manager Wurster read Ordinance No. 20-06 by title only.

Councilor Freilinger made a motion to pass Ordinance No. 20-06 on its first reading. Councilor Carter seconded the motion. Councilor Sears asked about the proposed increase in the franchise fee from five to seven percent. He said he does not remember the City Council having a conversation about this increase and noted most jurisdictions are at five percent for solid waste. City Manager Wurster said this change was discussed with Environmental Management Committee (EMC) and with each individual Councilor to see if anyone had an issue with it. Council discussed the renewal period of eight years and why five years was not a period that could be agreed upon. The rates would be adjusted periodically to ensure they stay within the profitability range discussed earlier and City Manager Wurster reviewed the timeline that would be associated with each rate adjustment. Councilor Smith noted that means the City Council is bound by the franchise agreement to keep Republic Services profitable and said she does not think she can support that at this time. Mayor Palmer would prefer to see the five year term agreement. Discussion ensued on the franchise fee increase and how that will ultimately get passed on to the customers. Mr. Mathias referred City Council to the rates in the packet and how they differ under a five and seven percent franchise fee. The motion passed 6-1 (Yes: Mayor Palmer, Councilors Freilinger, Carter, Neideigh, Plummer and Sears and No: Councilor Smith). The second reading will be scheduled in July.

7.2 Resolution No. 20-12 – Authorizing an increase in rates charged for solid waste disposal services

City Manager Wurster said Resolution No. 20-12 would authorize an increase to the rates charged by Republic Services effective September 1, 2020. Council decided to approve the fee structure in conjunction with a new franchise agreement and will discuss the two proposed rate structures at the July meeting. Staff will bring back rate information in July for Exhibit A that was included in the packet with a five and seven percent increase as well as what a five and seven percent increase would look like for the rates presented in Exhibit B.

Council took a break at 8:04 p.m. and returned to regular session at 8:10 p.m.

VIII. CONSENT ITEMS

Councilor Carter made a motion to approve the consent agenda consisting of items 8.1 – 8.11. Councilor Sears seconded the motion. There was no discussion and the motion passed unanimously (7-0).

- 8.1 Utilize up to \$15,000 of the Marion County Community Prosperity Initiative as matching funds for Business Oregon Emergency Assistance Matching Fund**
- 8.2 Resolution No. 20-13 – To increase appropriation authority related to Planning, Street Administration, and Civic Building Project Capital Outlay**
- 8.3 Resolution No. 20-14 – Adopting the City Council goals for fiscal year 2020-2021**
- 8.4 Resolution No. 20-15 – Adopting Revised Silverton Employee Handbook**
- 8.5 Ratify the authority for the City Manager to enter into an agreement to complete a survey of the Civic Center site in the sum of \$10,483.68**

- 8.6 **OLCC Liquor License for Guerra's Inc. dba: Guerra's (Old Silver Grill) with new ownership**
- 8.7 **Systems Development Charges Credits for Pioneer Phase V Subdivision**
- 8.8 **WWTP purchase of two variable frequency drives for two return activated sludge pumps**
- 8.9 **Ratify the City Manager's signature on intergovernmental agreement No. 34076 for right of way services with ODOT for the S. Water Street sidewalk extension**
- 8.10 **McClaine Street reconstruction project update**
- 8.11 **YMCA Program Services and Pool Operations Agreement Renewals**

IX. APPOINTMENTS TO COMMITTEE AND ADVISORY GROUPS

9.1 Ratify Mayor Palmer's appointment of Councilor Plummer to the Environmental Management Committee

Councilor Smith made a motion to appoint Councilor Plummer as chair of the Environmental Management Committee (EMC). Councilor Sears seconded the motion. There was no discussion and the motion passed unanimously (7-0).

X. CITY MANAGER UPDATE

City Manager Wurster welcomed Police Chief Jim Anglemier to his first City Council meeting and said the City will be holding a promotional ceremony for Chief Anglemier, Captain Josh Boatner, Sergeant Tim Hein, and Sergeant Jonathan Lamoreaux tomorrow at 3:00 p.m. in the Council Chambers. The election packet was included as an attachment in the Council packet. She would like Council to discuss the current meeting format and the timing for moving to in-person meetings. If the county is approved for Phase 2 the earliest the council could meet in-person would be July. The Council decided to continue with virtual meetings and do a check-in every month to see how things are progressing.

City Manager Wurster said the City released a draft phased reopening for City Hall, but voiced her concern about reopening too quickly. She said even though the Safety Committee and the Pandemic Team have made a lot of progress on signage protocols, there are still safety precautions the City can take. She said right now staff is not required to wear masks and asked if City Council would be supportive of delaying the reopening of City Hall until some of the remaining issues are worked out. Council discussed the need for staff to wear masks while at City Hall in order to protect each other and vulnerable individuals. It would set a good example for City staff to be wearing masks, especially when meeting with the public. City Manager Wurster said there are no cities in Oregon that have required a city-wide policy on wearing face coverings, but it likely could be considered under our home rule authority. The City Attorney said if that is something City Council would like to consider, the City would still need to be under the state of emergency and recommended it be an order and based on documentation to stop the spread of COVID-19. Council would have to allow for exceptions and determine the penalty for noncompliance. Councilor Freilinger said he would like to see the City explore this option and requested staff schedule a meeting next week for further discussion. Council discussed the need for face coverings indoors, but the mobility and air flow outdoors does not necessitate a face covering. City Manager Wurster said currently OSHA is the agency enforcing the state guidelines. Councilor Plummer said he would like to see enforcement at the local level.

Lastly, she said included in an upcoming meeting packet will be a report on the cost of the administrative order to not shut-off utilities for non-payment and not charge late fees. At that time she would like Council to make a decision to continue that program or not and for how long.

City Manager Wurster asked for the Department Heads to provide an update on how a requirement to wear face coverings would impact current duties. Police Chief Anglemier said the police officers have PPE in their cars and check their temperatures throughout their shift. The officers have discretion on when they put on masks depending on the circumstances which is similar to surrounding agencies. He said one issue they have found is masks impede an officer's ability to be heard clearly on the radio which can impact an officer's safety. If City Council chooses to enact a city-wide policy then the enforcement could be challenging and very time consuming for the department. Councilor Freilinger said he is not looking for any outdoor enforcement, but would expect the police to assist a business owner who might

have an individual who refuses to wear a mask in their store. Council discussed seeing police officers set an example and wear masks around City Hall and the Police Station.

Community Development Director Jason Gottgetreu said his employees are trying to avoid in person meetings as much as possible. He said when dealing with the public wearing masks would be an appropriate step. The City is working to install plexiglass barriers as a separation mechanism between the public and staff.

Public Works Director Petra Schuetz said her staff is wearing masks when interacting with the public while indoors. They are encouraging appointments for people and offering to meet with people outside the building. The crew is not required to wear masks when they are working on job site outside. She said employees have found the face coverings tend to be invasive when they are working outside and need better ventilation. They are also taking separate vehicles to job sites. Councilor Carter said she would like to see the crew wear them when they are working in Silverton, but discussion ensued on the safety issues involved when working on public works projects. City Manager Wurster said the City does have masks available for employees and it is currently voluntary if an employee chooses to wear one or not. Staff will try to schedule a Work Session to further discussion this item as soon as next week.

Mayor Palmer understands the health aspect of wearing face coverings while in businesses and supports wearing them. He said City Council will also need to weigh other factors such as the enforcement concerns, the equity of masks being available, he said in his industry PPE can still be hard to come by, and the fact businesses are suffering and some owners might not want to be put in a position to require their customers wear one. He said if this was just a universal health issue that everyone agrees with a requirement would already have been put in place by the state, but this is a complicated issue. Councilor Freilinger said there are people in the community not shopping in local businesses, because they don't feel comfortable without a face covering requirement.

XI. COUNCIL COMMUNICATIONS

Councilor Sears thanked Community Development Director Gottgetreu for getting back to him on a number of issues. He said there are a number of trailers parked on North Church Street and it appears people may be living in them which is not consistent with City ordinances. City Manager Wurster said the information has been forwarded to the Code Enforcement Officer and Police Chief. He said a number of issues are being worked on with Marion County, but he would also like to see about adding a right turn lane at McClaine and Westfield/C Street and is hoping that can be done at the same time as the McClaine Street reconstruction.

Councilor Plummer provided an update on the EMC meeting that was held last month. He asked Chief Anglemier about Silverton's body camera policies. Chief Anglemier said officers and sergeants have been wearing body cameras for almost two years. He explained the department has a policy and officers will typically turn them on as soon as they get a call, especially if it is a high priority call. He explained the circumstances when an officer would not turn on the camera due to dealing with a juvenile and/or if they are in a hospital, etc. The officers have to wear them in the field and prefer to wear them.

Councilor Smith asked about the status of the project on Jefferson and First Street. Public Works Director Schuetz said ODOT will begin mobilization in mid-June and the construction period will last four to six months. Councilor Smith said the series of meetings with Mackenzie regarding the Civic Center have been great and she is excited for the Council to see the next evolution.

Councilor Freilinger apologized for not being able to attend the last Work Session. He voiced his concern for the scope and size of the Civic Center project. He would like to set aside time on a future work session agenda to hear about the training officers go through in regards to equity, sensitivity and inclusion. Chief Anglemier said he would be happy to put something on and explained the department's training schedule. Councilor Freilinger said he would like the public to get a better understanding about the training police officers receive. Chief Anglemier said he would also like to begin a Citizen's Police Academy in Silverton.

Mayor Palmer said he would like to see the Police Department put something out to the public on social media about what is happening across the country.

Councilor Carter said the most effective thing she saw was Portland Police taking a knee with people protesting. She would like to see the Silverton Police participate in the peaceful demonstration on Friday. She said the fire hydrants look fantastic.

Councilor Neideigh asked staff to touch base with the Chamber of Commerce in order to hear about concerns from businesses regarding face coverings.

Mayor Palmer provided an update on the Small Business Relief Fund. He said the hydrant in front of his house looks amazing, but would prefer to see them painted orange and black. He congratulated Chief Anglemier on his promotion.

XII. ADJOURNMENT

Councilor Sears made a motion to adjourn and Mayor Palmer adjourned the meeting at 9:41 p.m.

Respectfully submitted by:

/s/Angela Speier, Assistant to the City Manager/City Clerk

Good evening city council,

I would like to make a request that as a council you discuss the idea of mandating a mask requirement within our local businesses, a policy for the public to wear masks anytime they are in-doors, in any local business. I think we are all very aware of the deep division developing within our community around the idea of wearing masks. I think most of us have seen the impact of how ugly it is getting within this community. I have approached Kyle, assuming as mayor he had the power in this matter, he assured me that he does not and it would need to be taken up by all of you. Therefore, I am submitting a request for you to discuss creating a mask policy for the public.

My reasons are many, but I am not going to get into the medical side of it, I would hope most of understand it is at least fairly likely that wearing a mask will help reduce the spread of covid19. I am going to propose this more on the importance and impact on our local economy. I watched what happened on social media when a small group of people with positive intentions, tried to do something proactively, so that people concerned about safety could feel better leaving their homes and spending money locally. They were vilified and attacked for trying to track what businesses were taking the required precautions. Because I shop for my dad with cancer and I live with a healthcare provider, I have reasons to be cautious and I want to go to businesses that I know are also being cautious before I enter them. I think almost everyone has a story like that though, almost everyone has someone they need to protect. I also want all of our little businesses to thrive and I believe If we took the debate out of wearing a mask, then more people would be comfortable going out and supporting the economy. They would not have to worry so much about where it's "safe" to spend their money.

My son lives in a place where the mayor requires masks for the whole island, people are just doing it, there has been very few problems enforcing it. My sister lives in San Francisco, masks are required, people are wearing masks. My husband is currently working at a hospital in NYC, everyone is wearing masks everywhere in the city, including outside, everyone is just doing it. I understand that because our community has not been impacted as dramatically as other places it's harder for people to take this seriously, but this is serious.

Requiring masks of patrons would also be a symbol of our mutual respect for the fact that Silverton small business owners and all employees at this time are required to wear masks throughout their shifts to protect us. We should show our respect by wearing a mask when

frequenting our businesses to also protect all of them. I have been so impressed with our businesses have stepped up and the concern they have put into making everything as safe as possible, I would like to see us repay their efforts with this simple effort of our own as community members.

I understand masks have become very controversial; I do believe there will still be a portion of the population who will refuse to wear one, but I believe the number of people that are on the fence or will just comply because it becomes an expectation, will outnumber the ones that will not. This action could go a long way in protecting our community and in helping our economy begin to thrive again.

If you are uncomfortable enforcing masks, please consider making stronger public statements and recommendations about the importance of masks. Kyle is an amazing mayor and puts endless effort in to communicating with his citizens and advocating for public safety. I am hearing often right now that people are feeling a lack of guidance. Many of the state policies and recommendations are confusing and people need a clear message.

I hope you will at least discuss this possibility and weigh the possible benefits to our local businesses.

Thank you for your time,

April Newton

Hello Council Members,

Thank you for the work that you do. During these unprecedented times, I wanted to bring some of my thoughts to you and maybe we can work together to bring some cohesion and deeper learning into our community. First, we have to unlearn and then we have to learn and act. As protests against police brutality and the killing of black people of color are erupting around the country what are we as Silvertonians doing to support the people of color in our community? How is our police force being trained in de-escalation techniques and racial diversity? How are the employees of our city being trained? It would be so powerful for the Silverton Police Department as well as the City of Silverton to be taking a lead in our community. Our Mayor has started some really good conversations in the last few years regarding racism in our community, and now I wonder how we can go deeper, how can we make deeper change locally?

I hope to be part of this conversation and this work with you all.

Thank you,

Subject: Public comment for council meeting tonight
Date: Monday, June 1, 2020 11:58:39 AM

**** This email is from an EXTERNAL sender. Exercise caution when opening attachments or click links from unknown senders or unexpected email. ****

Dear council members and city staff,

I'm a healthcare worker, specifically a RN, and I've been disappointed with our mask compliance in the Silverton area. I realize that a lot of this comes from the Governor, however, I wish there could be some better way to locally serve our community better with enforcement. OSHA is flooded with complaints, and also there are a lot of community members out and about not practicing social distancing or face covering as directed by our statewide leadership. This makes me incredibly nervous as a parent, a healthcare worker, and a spouse of an immunocompromised person. I have been choosing to shop at business in Salem who are practicing better habits, or the ones in Silverton who are doing a great job. Recently my husband also had an interaction with an unmasked Silverton police officer. This really disappoints me. I understand this isn't something we can "police" all the time, but if there were some better campaigns or something in the paper or some sort of better communication coming from the city strongly urging face coverings while out and about, that would be welcomed.

One other topic that has come to my mind this week is an article I read on [cbsnews.com](https://www.cbsnews.com/news/racial-bias-training-de-escalation-training-policing-in-america/) from August of 2019 regarding racial bias training for police officers. <https://www.cbsnews.com/news/racial-bias-training-de-escalation-training-policing-in-america/>

I would ask that our city manager look into our policy and ensure that our own police department has proper training on this subject.

Thank you.

Respectfully,
Sarah Weitzman
