1106 Trespass Safeway

I made contact a named male and gave him a verbal trespass warning for one year from Safeway in Silverton.

0703 Parking Violation 800 block E. Main St.

Caller reported a tan GMC Envoy parked in the grass in his front yard on the city street side. The vehicle had not moved in a week and he had been mowing around it. I located the owners of the vehicle nearby. They advised it was broke down. I explained they could not leave vehicles on the road longer than 72 hours. They said they would push it to their driveway. The caller was happy and requested I not tag the vehicle.

1002 Suspicious 500 block Liberty St.

Units responded to what was reported as a possible verbal disturbance at this location. The anonymous caller reported hearing a male yelling and thought he was doing so at his girlfriend. I contacted the male, who denied any sort of disturbance going on at the house. He told me he discovered his dog had chewed up one of his shoes and said he was yelling at the dog. We spoke with his girlfriend, who also denied any sort of disturbance occurred. No suspicious/criminal activity observed.

1026 Disturbance 500 block Norway St.

Complainant called moments after Police left. The male neighbor, from the previous call, confronted complainant about calling the Police and they started yelling at each other. We arrived and everyone was calm and separated. They both accused the other one of name calling. I told both parties they need to avoid each other and keep the peace. I explained if the fighting continues, anyone yelling would be arrested for Disorderly Conduct. Both advised they understood and apologized. Peace Restored.

0937 Theft 400 block Koons St.

Complainant reported the theft of several pieces of miscellaneous camping and fishing equipment, two mowers, garden power tools and implements. The items were taken sometime between Saturday evening and Sunday morning. Total value of the stolen items is estimated at about \$10,000. Complainant had already talked with his neighbors and no one saw anything. There are no suspect leads at this time.

1348 Intoxicated Subject 300 block E. Main St.

An employee called in with concerns about an intoxicated male sitting on a bench in front of their store who had twice fallen against their store windows. We contacted the male at the location, who was intoxicated to the point that he could barely stand on his feet. He admitted drinking today. He said he went to the liquor store after he got off work. I offered to call someone to come get him. He agreed to let me call his wife, but did not have a phone number for her. He eventually declined to talk further with me and walked off. Dispatch later located a

phone number for his wife. I called his wife and explained the situation. She told me she had been trying to call him, but he was not answering his phone. She said she would come to Silverton to try and locate him. I told her I would call back if I was able to find his current location.

1451 Intoxicated Subject 400 block N. Water St.

I found the intoxicated male passed out on the lawn at this location. The complainant said he was told someone witnessed him fall down, but he had no injuries or complaint of pain so medics were cancelled. His wife, who I had previously called after my earlier contact with him, was in Silverton to look for him and came to the location to drive him home. The wife returned to the location a short time later and told me he had gotten out of the car over by the Rite-Aid and refused to get back in. She said he was last seen walking on McClaine Street. I explained I did not have the authority to take him to a detox facility to sober up. She said she understood and would try to find him again to take him home. I located him at TNT Market where he had just purchased a large can of beer. After realizing he was intoxicated, the store took the beer back. I told him that if I got a report he was staggering in and out of traffic, I would arrest him for Disorderly Conduct. He said he understood. His wife was called again, but she was already headed home to Salem and refused to come get him.

While driving in the area, I was flagged down by a citizen who reported a boat on a trailer at this location that had been stored on the street for about a week. The citizen expressed concern about the boat also being a hazard due to its size because cars have to swing into the oncoming lane of travel to get around it. I made contact with the resident, who told me the boat belonged to his son. I told him about the complaint and he said the boat had only been parked there about 3 days. I advised him of the city's ordinance regarding storage of vehicles on the street. He said he would have his son move it.

We viewed Wilco video footage and it showed the female pull into Wilco parking lot and walk over to TNT. Complainant was in the passenger seat and went into Wilco. They both left 6 minutes later. We later found the female on Railroad. She said complainant was paranoid of her cheating on him, so he called the police on her. After further interview, her story made no sense.
