

# Bicycle Registration Program

Silverton Police Department 306 S. Water Street, Silverton, OR  
503-873-5326

The Silverton Police Department is committed to providing its' community with the highest level of service available to help prevent crime. You can help!

By registering your bicycle with the police department you will have a file, safely stored in our data base, with all the necessary information about your bicycle in case it is ever stolen.

Did you know; in order for police agencies to identify a bicycle as stolen, they need to have the factory serial number or a unique owner applied number? By recording your serial number, if your bike is ever stolen, police can enter the required information into a national data base for all law enforcement to see.

If the bicycle changes legal possession please notify the police department you no longer own it.
