 \text{in hundreds of cubic ft})
 \end{array}$$

SEWER RATE SCHEDULE

Your sewer charge is made up of two parts, a **base** charge and a **usage** charge. The following charges are for all users **inside** the city limits.

- I. **Base Charge** The base charge is a monthly flat fee and shall be greater of the rate based on number of units or the meter equivalent.

Base Rate for residential per unit inside the City - \$25.84 monthly per business or dwelling unit.

Meter Equivalent for Commercial I, Commercial II, Commercial III, Commercial IV and Industrial inside the City:

<u>Your Meter Size</u>	<u>Meter Equivalent Factor</u>	<u>Rate Effective</u>
5/8 & 3/4 inch	1	\$25.84
1 inch	2.5	\$64.60
1 ½ inch	5	\$129.20
2 inch	8	\$206.72
3 inch	15	\$387.60
4 inch	25	\$646.00
6 inch	50	\$1,292.00

- II. **Use Charge** A use charge to a residential user shall be based on said users average monthly water consumption for the previous months of November, December, January, February, March and April as read from the user's water meter. In the case where water service has been turned off for not more than one month during the six (6) winter months, the five (5) remaining months of record shall be used for calculating the average. Residential customers have the option to “opt-out” of the averaging method and have the use charge based on actual usage. To do this the customer must complete the applicable form by April 30 and submit it to the Finance Department. The customer will remain on this method until requesting a change.

Commercial user charges shall be based on the user's actual monthly metered water consumption.

<u>Class of User</u>	<u>Base Rate Schedule</u> per 100 cubic feet of water consumption
Residential	\$7.17
Commercial I	\$7.17
Commercial II	\$8.59
Commercial III	\$10.18
Commercial IV & Industrial	\$5.37/Ccf of Flow \$0.64/lb of BOD \$0.64/lb of TSS

III How to calculate the sewer portion of your bill

$$\begin{array}{rcl} \text{(_____)} & + & \text{(_____)} \\ \text{Base Charge} & & \text{Use Charge} \\ (\$25.84 \text{ times dwelling} & & \text{(Rate class from table above times} \\ \text{or business units)} & & \text{your average usage for residential} \\ & & \text{customers or **typical** monthly usage for} \\ & & \text{commercial customers in hundreds of cubic feet)} \end{array} = \underline{\hspace{2cm}} \text{Total Sewer Charge}$$

All new and other residential customers who don't have sufficient usage for the averaging period will have their sewer charge based on actual usage up to a maximum \$81.77 per month; this is based on 1.5 times the city wide average water consumption of 537 cf. Which means customers will be billed up to a maximum amount of 806 cf. Customers will remain on this billing method until they qualify for the averaging method. (Updated: 5/25/2021)
